The Fast Penicil

Once there was a Fast Pencil

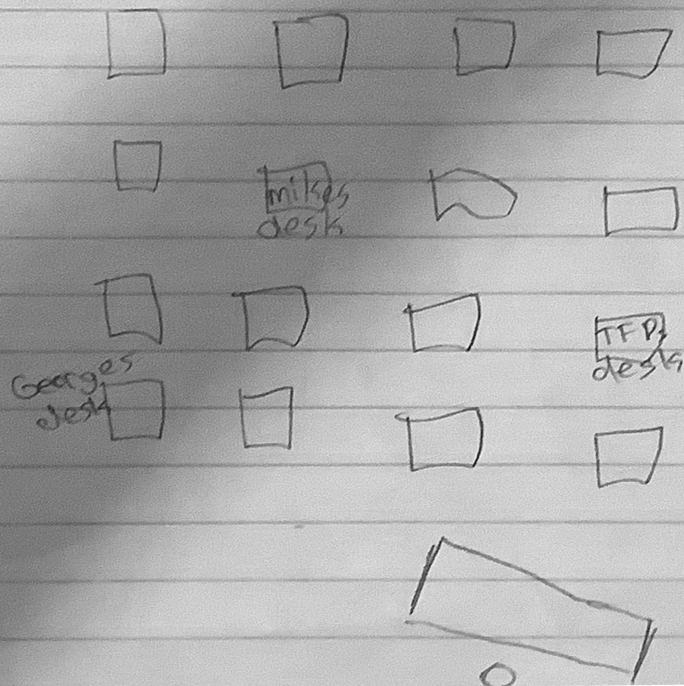

Hi im TFP, AKA the Fast Pencil, from Youtube, you'll get that in a bit... I am fast not the fastest but fast. I used to be slow until something came hard to describe happened ever since me and 19 other pencils were extremely fast; Jake Mcwell, Jake Mcwell jr., Milse (My friend), George (Also my friend), Me, Tom Colosky, Fred Jones, Carter Ludwicks, Joey Stefanouskey, the rest I don't know.

'Bout time I start my story, it started in Montessori the school of pencils. I only liked school 'cause I finished first. In every class math, Geography, etc. Also gym, gym was fun...

1998

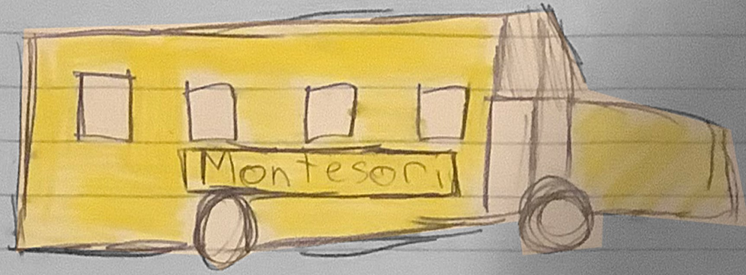

"Hey TFP what's the next class, I always forgot this one which is why I should remember it." George asked after art.

"Science." I said. We walked down the hallway to the right up the stairs and into room 142. The science room wasn't much desks the teachers table skeletons and a white board. We sat in our desks.

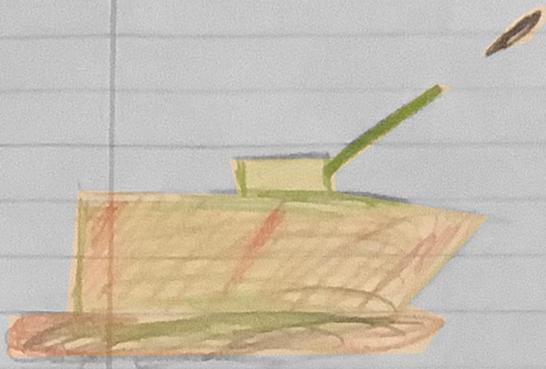

2 minutes later the bally Gordon and his two "friends" AKA body guards Beef and Joey right behind him. "Oh hi, its the SLOW Pencil!" said Gordon. Beef and Joey grinned. "Ah yes bike forge how are you two losers doing?" Gordon said with a big grin on his face. Beef and Joey burst out into laughter. "Ya thats right big L!" "Why don't you take your attitude and Beef and Joey to find the door!" I spat out. "I can't slow. This is my last class too." Gordon said as he went to his seat. 5-10 minutes later in came the teacher Mrs. Fraser. After class me Mike and George got

on the bus for home

The Next Day

TFP, Mike, and George went to school. In the middle of second period they got interrupted.
BOOM! Something shot up into the sky. They saw 3 tanks shooting at... at... a meteor was on fire 100,000 miles up in the sky. Soooooon the panic started!!!!!!

The meator 400 miles
away came firing. People
took shealtor in bunka
The tanks stayed put.
"Boom!" Some people pashed
out. 2 out of 5 shelters
blew up. The tanks too. Aswell
as the school. All of it
was gone, nothing just
a big hole. The ground
was in some parts
in flam. It was smokey.
Something came into focus,
but it couldn't be made out.
